

Notes on Contributors

Jan van den Akker is Professor and Head of Department of Curriculum at the Faculty of Behavioral Sciences, University of Twente, The Netherlands. His research focuses on the crossroads of curriculum, teacher, and school development. Also, through teaching, research and consultancy, he is involved in many international studies on educational development. His e-mail address is:

jan.vandenakker@utwente.nl

Andrew Clegg is an educational consultant based in Namibia where he has lived for much of the last 13 years. He has been a teacher of science and technology and has worked as researcher and trainer in the Education Faculties of the Universities of Botswana, Leeds (UK) and Dar es Salaam. In Namibia, before establishing his consultancy company he worked for the Ministry of Education on matters related to the teaching of science. His e-mail address is:

asclegg@mweb.com.na

Matthew D. Curtis is a doctoral student in Curriculum Studies at the University of Wisconsin-Madison. As a project assistant for the National Science Foundation-funded project he supported exchange visitors, analyzed project data and wrote reports. His email address is:

mdcurtis@wisc.edu

Beverley Damonse is Executive Director of the South African Agency for Science and Technology Advancement, Pretoria. As Manager for the focus area: Education and the Challenges for Change, National Research Foundation, Pretoria, she planned, coordinated, and administered exchange visits and the first Research School. Her email address is:

beverley@saasta.ac.za

Leo de Feiter is a senior consultant and project manager at the Centre for International Cooperation (CIS) of the Vrije Universiteit Amsterdam (VUA). From a background in biology teaching and teacher education, he developed a special interest in the design of policies and projects in science and mathematics teacher education and teacher professional development in international contexts. He has been involved in many teacher education projects in a variety of countries in Africa and Asia, taught in a postgraduate programme on science education and development, and published on effective science teacher development strategies. His e-mail address is:

L.de_Feiter@dienst.vu.nl

Annemarie Hattingh is a senior lecturer in the Department of Curriculum Studies at the University of Pretoria (South Africa). She specialises in Science Education where her current research concerns the design of powerful learning environments based on constructivist learning principles. She is the co-leader of an African-Norwegian research collaboration named Productive Learning Cultures. Her e-mail address is:

annemarie.hattingh@up.ac.za

Peter W. Hewson is Professor of Science Education at the University of Wisconsin-Madison. As Project Director of a National Science Foundation grant, he planned, coordinated, and administered exchange activities and the Research Schools. His email address is:

pwhewson@wisc.edu

Norihiko Kuroda is Professor of the Center for the Study of International Cooperation in Education, Hiroshima University. He did his graduate work in sociology of education at Tokyo University and served as an education specialist at UNESCO, Bangkok and OECD/CERI (Centre for Educational Research and Innovation) as well as a government official at the Ministry of Education before joining CICE in 1997. His field of research interest is policies and practices of international cooperation and exchange in education. His email address is:

kuroda@hiroshima-u.ac.jp

Sølvi Lillejord is Professor in Education at the University of Bergen, Norway. She initiated the programme Productive Learning Cultures in 1997, and has been the North programme coordinator since then. Her research works are in the fields of school evaluation in an organisational and philosophical perspective, pedagogical leadership, qualitative research methods and ICT (web-based learning).

Solvi.Lillejord@iuh.uib.no

Fred Lubben is Senior Research Fellow in the Department of Educational Studies at the University of York, UK. He has been involved in science education curriculum development and teacher education in various countries in Africa and the Caribbean, and recently was research coordinator and facilitator for the Skills For Development project for mathematics, science and technology education researchers in Southern Africa. His email address is:

fel1@york.ac.uk

Ian G Macfarlane is a senior consultant and education specialist at the Centre for International Cooperation of the Vrije Universiteit Amsterdam. In the earlier part of his career, he spent eleven years lecturing chemistry at the University of Botswana (the last years also as Dean of the Faculty of Science) before joining the Vrije Universiteit Amsterdam in 1987 to concentrate on development cooperation. From 1991-97 he was seconded to the Ministry of Education and Culture in Namibia where he was the team leader of the EU-

funded in-service support project, INSTANT. He is particularly interested in the practical side of interventions and how to make sure that such interventions are successfully implemented. He has carried out a wide range of consultancy assignments across Africa and Southeast Asia, latterly concentrating much of his time on evaluation of donor-funded projects and programmes. His e-mail address is:

Ig.macfarlane@dienst.vu.nl

Kalafunja O-saki is Associate Professor in the Faculty of Education, University of Dar es Salaam. He has been a coordinator of a number of science education projects including a Council funded link involving Universities of Southampton, and Leeds, a Teacher Education Project in science and mathematics (TEAMS) which involved three Dutch Universities and two faculties at the University of Dar es Salaam, and an in-Service education and training project in science and mathematics supervised by the Ministry of Education and Culture in Tanzania. He has worked extensively on curriculum review, analysis and project evaluation, science and environmental education, and classroom. His email address is:

kiwosi@edu.udsm.ac.tz

Wout Ottevanger is a senior education specialist at the Centre for International Cooperation of the Vrije Universiteit Amsterdam. He has worked in science education in a secondary school in Zambia, at the Universities of Swaziland and Botswana, and at the Ministry of Basic Education in Namibia. Now based in Amsterdam, he is involved in a number of science education development projects with partner institutions in Africa and Asia. His research interest is in the area of curriculum materials and teacher development. Recently, he has been coordinating a WB study on science, mathematics and ICT education in secondary education in Sub-Saharan Africa. His e-mail address is:

wjw.ottevanger@dienst.vu.nl

Marilyn B. Pugh is Professor of Economics at Prince George's Community College in Largo, Maryland. She has served as project director for numerous grants focusing on international education and on human capacity building in South Africa. She is currently Project Director of a USAID/SA cooperative agreement to address problems of capacity and quality in the FET sector in South Africa by providing short-term training opportunities for 176 South African teachers, school administrators, and Department of Education officials in the U.S. Her email address is:

mpugh@pgcc.edu

Joseph Riley is Professor Emeritus of the University of Georgia College of Education. He was a Fulbright Scholar to the Philippines where he worked with the Ministry of Education assisting in the evaluation of their national science curriculum. As science education consultant to the World Bank and the Asian Development Bank, he has evaluated science education programs in Egypt, Indonesia and the Philippines. In 2002 he was a visiting scholar in the

Centre for the Study of International Cooperation in Education (CICE) at Hiroshima University. He has served as Associate Editor of the Journal of Research in Science Teaching and as director of the National Science Teachers Association's Curriculum Review Center. Currently he is on the faculty of the National Institute of Education, Nanyang Technical University, Singapore. His email address is:

jpriley@nie.edu.sg

John Rogan was a visiting professor at the Center for the Study of International Cooperation in Education, Hiroshima University from August to November 2004. Prior to that he spent 11 years at the University of Montana, Western followed by 7 years as the manager of the Centre for Mathematics, Science and Technology Education at Pretoria University. Currently he works for the University of KwaZuluNatal. The main focus of his professional career of the past 35 years has been in science education, and in particular the development of curriculum materials and professional development. He obtained undergraduate degrees from two South African universities, a masters degree from Teachers College, Columbia University and a doctorate from the University of California, Riverside. His email address is:

jmroganza@yahoo.com

Martie Sanders is Associate Professor in Science Education, at the University of the Witwatersrand in Johannesburg, South Africa. Based on her interests in developing research capacity in order to improve the quality of research, and in the teaching of skills, she has been involved in the Skills For Development project as a member of the Steering Committee, as a workshop facilitator, and as a researcher. Her email address is:

martie@biology.biol.wits.ac.za

Sara Schneckloth is a master's student in Fine Arts at the University of Wisconsin-Madison. As a project assistant for the National Science Foundation-funded project she analyzed project data and wrote reports. Her email address is:

sschneckloth@wisc.edu

Mary Helen Spear is Professor of Psychology at Prince George's Community College. She is Project Manager for a USAID project in South Africa and has just finished serving as Coordinator of Distance Learning for a USAID project at the National University of Rwanda. She has worked on projects related to the use of technology in teaching in the Philippines, Poland, Denmark, Ethiopia, Rwanda and South Africa. Her email address is:

mhspear@pgcc.edu
