

Knowledge Report Presentation

From November 21st until November 24th ,2022

Post JICA Knowledge Co-Creation program, the participants from the following countries gave a Knowledge Report presentation on their new acknowledgement and findings after participating in the JICA program. The Knowledge Report sessions were divided into three sessions in that each participant had a span to share their knowledge, followed by a question-and-answer session and discussions among the participants. The highlights of each participant vary, as their own content regarding their country and the analysis learned during the program.
