## Report

**Title: Indicator to appreciate educational policy**

**Lecturer: Yoshida Sensei**

**Contents: This lecture started with the explanation about ‘indicator’ to assess educational achievement. He gave some examples and asked trainees to choose one indicator and let them explain the reason why they chose it. The lecture then moved onto group work in a group of 4 people to solve the imaginary challenging situation he provided. In the second day, trainees learned how international cooperation agency contributed to the developing countries with the actual example.**
